

PRODUKTINFORMATIONEN

The Smart Border 10 m GARTENKANTE is a flexible system for separating and shaping spaces in gardens and functional outdoor areas. Supplied in a roll, it enables quick installation of long sections without the need for frequent joining of elements. Made of durable recycled plastic, the edging features high resistance to weather conditions and stability during use. The product is intended for precise separation of different surface zones and for maintaining order in garden compositions. The package consists of a set including a 10-metre GARTENKANTE supplied in a roll and 20 mounting anchors with a length of 18 cm. The entire set is packaged in PVC film and labelled with a product tag.

PRODUKTGALERIE

EINSATZBEREICHE

The edging is used to separate and shape flower beds, lawns, paths, gravel zones, paving edges and other elements of garden landscaping. It is also suitable for creating tree and shrub outlines, defining guiding lines, and preventing loose materials from spreading. Thanks to its flexible design, it allows for free creation of spatial layouts, both simple and complex in shape.

PROPERTIES

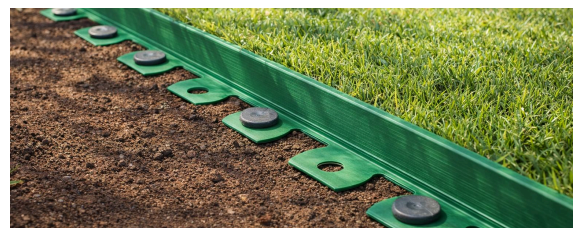

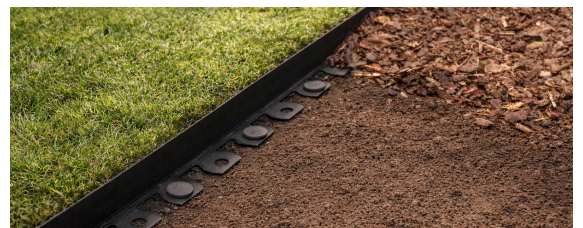

- a flexible roll form allowing the creation of any shapes, curves and outlines,
- resistance to moisture, high temperatures and UV radiation,
- stable fixing achieved by securing with dedicated fixing pins,
- a smooth, continuous edging line along the entire length, with no visible divisions between segments,
- material neutrality - the edging does not react with soil or loose materials,
- high resistance to mechanical damage and deformation,
- low Gewicht facilitating transport and quick installation,
- made from recycled plastic, highlighting the product's environmentally friendly nature,
- compatibility with various types of surfaces, including loose, paved and decorative ones.

TECHNISCHE DATEN

Höhe	50 mm
Length	10 m
Width	50 mm
Farbe	Schwarz Grün Braun
Gewicht	1,9 kg
Wall thickness	3 mm
Material	100% Recycling
Rohstoff	HDPE
Formstabilität	+/- 2%
Gewicht tolerance	+/- 5%
Art der Befestigung	ECO-Pfahl L-180

VERPACKUNG

Palettengröße	110cm/110cm
Palettenhöhe	2,1 m
Palettengewicht	490 kg
Verpackung	9 Stück pro Karton, 27 Kartons pro Palette
Stückzahl pro Palette	243
